¹ [NHS Digital – How we look after your health and care information](#)

1.2 Principles

NHS Digital is a data controller and has a legal duty, in line with the General Data Protection Regulation (GDPR), to explain why it is using patient data and what data is being used. Similarly, **Lavender Hill Group Practice** has a duty to advise patients of the purpose of personal data and the methods by which patient personal data will be processed.

1.3 Status

The practice aims to design and implement policies and procedures that meet the diverse needs of our service and workforce, ensuring that none are placed at a disadvantage over others, in accordance with the Equality Act 2010. Consideration has been given to the impact this policy might have in regard to the individual protected characteristics of those to whom it applies.

This document and any procedures contained within it are non-contractual and may be modified or withdrawn at any time. For the avoidance of doubt, it does not form part of your contract of employment.

1.4 Training and support

The practice will provide guidance and support to help those to whom it applies to understand their rights and responsibilities under this policy. Additional support will be provided to managers and supervisors to enable them to deal more effectively with matters arising from this policy.

2 Scope

2.1 Who it applies to

This document applies to all employees, partners and directors of the practice. Other individuals performing functions in relation to the practice, such as agency workers, locums and contractors, are encouraged to use it.

2.2 Why and how it applies to them

Everyone should be aware of the practice privacy notice and be able to advise patients, their relatives and carers what information is collected, how that information may be used and with whom the practice will share that information.

The first principle of data protection is that personal data must be processed fairly and lawfully. Being transparent and providing accessible information to patients about how their personal data is used is a key element of the General Data Protection Regulation.

3 Definition of terms

3.1 Privacy notice

A statement that discloses some or all of the ways in which the practice gathers, uses, discloses and manages a patient's data. It fulfils a legal requirement to protect a patient's privacy.

3.2 Data Protection Act 2018 (DPA18)²

The Data Protection Act (DPA18) will ensure continuity by putting in place the same data protection regime in UK law pre- and post-Brexit.

3.3 Information Commissioner's Office (ICO)³

The UK's independent authority set up to uphold information rights in the public interest, promoting openness by public bodies and data privacy for individuals.

3.4 General Data Protection Regulation (GDPR)⁴

The GDPR replaced the Data Protection Directive 95/46/EC and was designed to harmonise data privacy laws across Europe, to protect and empower all EU citizens' data privacy and to reshape the way in which organisations across the region approach data privacy. The GDPR came into effect in May 2018.

3.5 Data controller

The entity that determines the purposes, conditions and means of the processing of personal data
